**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

With moderate to high UV levels and temperatures in the mid to high teens Celsius. The main hazards will be sunburn, sunstroke and dehydration. Ensure you are prepared for the warm, dry and sunny conditions. Also be aware that UV levels increase with height – sun protection is a must.

Forecast for Monday 09 May 2022

Weather: A dry and bright day with the cloud thickening and lowering into the evening.

Maximum wind: 20-25mph with gusts to 35-40mph from the evening.

Chance of cloud-free hill tops above 800m: 70%, clear for much of the day, but broken cloud at 600-800m expected over western slopes from late afternoon.

Low Cloud and visibility: Mostly good visibility with some haze. Broken cloud over the peaks from late afternoon, mainly in the west.

Temperature: **Valleys:** 12 or 13 C
At 800m: 9 C
Freezing level: Above the summits.
